### ◆ About Phoenix Contact and PLCnext Technology

PHOENIX CONTACT is a global market leader and innovator in the field of electrical engineering. PLCnext Technology is the unique ecosystem for industrial automation designed by Phoenix Contact. As part of the ecosystem, The PLCnext Store is an open software store especially for industrial automation technology that offers solutions that enable you to expand the functions of your PLCnext Control.

### ◆ About SIGA

SIGA OT Solutions provides OT (Operational Technology) monitoring, anomaly detection and cyber-security for ICS/SCADA (Supervisory Control and Data Acquisition) in industrial and critical infrastructure applications.
